

REEDS UPDATE AUGUST 2022

Over the past years, the COVID-19 pandemic continued to affect countries around the world. The world descended into multiple crises in 2021-22 and inequalities deepened. We are yet to get “back to normal”! The economic fallout could be with us for years to come. How the “new normal” is uncertain!

Weathering the last two years has certainly been tough to many and REEDS was no exception. Despite the difficult circumstances of this last year, witnessing unprecedented stress and pressures, REEDS has risen to the challenge and has managed to deliver on its strategic objectives, thanks to the continued patronage from our supporting agencies and patrons.

You can have a feel about our operations and the results we achieved during the challenging year in the attached [Annual Report 2021-22](#).

We are very grateful for the exceptional efforts of our amazing Team REEDS behind our results. Their talent and agility have allowed us to successfully navigate a tough year. We thank each of our stakeholders and supporters for their continued support to sustain our efforts in our mission.

Continue to keep safe and well.

Dr. Ravi K Reddy
Secretary, REEDS

Hyderabad, 10 August 2022
